Journal of Cave and Karst Studies
Volume 71  Number 2  August 2009

Article 109
Lampenflora Algae and Methods of Growth Control
Janez Mulec and Gorazd Kore

Article 116
Entomopathogenic Fungi Carried by the Cave Orb Weaver Spider, Meta Ovalis (Araneae, Tetragnathidae), with Implications for Mycoflora Transfer to Cave Crickets
Jay A. Yoder, Joshua B. Benoit, Brady S. Christensen, Travis J. Cusson, and Horton H. Hobbs III

Article 121
Climate Driven Changes in River Channel Morphology and Base Level During the Holocene and Late Pleistocene of Southeastern West Virginia
Gregory S. Springer, Harold D. Rose, Ben Hardt, Frank G. Cocina, R. Lawrence Edwards, and Hai Cheng

Article 130
The Genesis of Cave Rings Explained using Empirical and Experimental Data
F. Nazzoli, S. Brach trovare, and L. Cavallari

Article 136
The Mineralogy and Trace Element Chemistry of Black Manganese Oxide Deposits from Caves
William B. White, Carmen Pizza, and Barry E. Scheetz

Article 144
Variability in Terrestrial and Microbial Contributions to Dissolved Organic Matter Fluorescence in the Edwards Aquifer, Central Texas
Justin E. Birdwell and Annette Summers Engel

IN THIS ISSUE:
Dissolved Organic Matter in the Edwards Aquifer
Lampenflora Growth Control Methods
Climate Driven Base Level Changes in West Virginia
Mineralogy of Manganese Oxide Cave Deposits
And More...
GUIDE TO AUTHORS

The Journal of Cave and Karst Studies is a multidisciplinary journal devoted to cave and karst research. The Journal is seeking original, unpublished manuscripts concerning the scientific study of caves or other karst features. Authors do not need to be members of the National Speleological Society, but preference is given to manuscripts of importance to North American speleology.

LANGUAGES: The Journal of Cave and Karst Studies uses American-style English as its standard language and spelling style, with the exception of allowing a second abstract in another language when room allows. In the case of proper names, the Journal tries to accommodate other spellings and pronunciation styles. In cases where the Editor-in-Chief finds it appropriate to use non-English words outside of proper names (generally where no equivalent English word exists), the Journal italicizes them. However, the common abbreviations i.e., et al., and etc. should appear in roman text. Authors are encouraged to write for our combined professional and amateur readerships.

CONTENT: Each paper will contain a title with the author's names and addresses, an abstract, and the text of the paper, including a summary or conclusions section. Acknowledgments and references follow the text.

ABSTRACTS: An abstract stating the essential points and results must accompany all articles. An abstract is a summary, not a promise of what topics are covered in the paper.

STYLE: The Journal consults The Chicago Manual of Style on most general style issues.

REFERENCES: In the text, references to previously published work should be followed by the relevant author's name and date (and page number, when appropriate) in parentheses. All cited references are alphabetical at the end of the manuscript with senior author's names first, followed by date of publication, title, publisher, and page numbers. Geological Society of America format should be used (see http://www.geosociety.org/pubs/itc05.cfm). Please do not abbreviate periodical or book titles. Web references are acceptable when deemed appropriate. The references should follow the style of: Author (or publisher), Year, Webpage title: Publisher (if a specific author is available), full URL (e.g., http://www.ufos.gov/ctuide.html) and date when the web site was accessed in brackets, for example [accessed July 16, 2002]. If there are specific authors given, use their name and list the responsible organization as publisher. Because of the ephemeral nature of websites, please provide the specific date. Citations within the text should read: (Author, Year).

SUBMISSION: Effective July 2007, all manuscripts are to be submitted via Author Mentor, a web-based system for online submission. The web address is http://jcks.allentrack2.net. Instructions are provided at that address. At your first visit, you will be prompted to establish a login and password, after which you will enter information about your manuscript (e.g., authors and addresses, manuscript title, abstract, etc.). You will then enter your manuscript, tables, and figure files separately or all together as part of the manuscript. Manuscript files can be uploaded as DOC, WPD, RTF, TXT, or LaTeX files, and figure files can be uploaded as TIFF, EPS, AI or PDF files. Alternatively, authors may submit manuscripts as PDF or HTML files, but if the manuscript is accepted for publication, the manuscript will need to be submitted as one of the accepted file types listed above. Manuscripts must be typed, double spaced, and single-sided. Manuscripts should be no longer than 10,000 words plus tables and figures, but exceptions are permitted on a case-by-case basis. Authors of accepted papers exceeding this limit may have to pay a current page charge for the extra pages unless deci
ded otherwise by the Editor-in-Chief. Extensive supporting data will be placed on the Journal's website with a paper copy placed in the society's archive library. The data that are used within a paper must be made available. Authors may be required to provide supporting data in a fundamental format, such as ASCII for text data or comma-delimited ASCII for tabular data.

DISCUSSIONS: Critical discussions of papers previously published in the Journal are welcome. Authors will be given an opportunity to reply. Discussions and replies must be limited to a maximum of 1000 words and discussions will be subject to review before publication. Discussions must be within 6 months after the original article appears.

MEASUREMENTS: All measurements will be in Systeme International (SI) metric except when quoting historical references. Other units will be allowed where necessary if placed in parentheses and following the SI units.

FIGURES: Figures and letters must be neat and legible. Figure captions should be on a separate sheet of paper and not within the figure. Figures should be numbered in sequence and referred to in the text by inserting (Fig. 1). Most figures will be reduced, hence the lettering should be ample and sharp. The contrast will generally only be printed at author's expense. TABLES: See http://www.caves.org/pub/journal/PDF/Tables.pdf for guidelines and style of publication. Copyright and Author's Responsibilities: It is the author's responsibility to clear any copyright or acknowl-
edgment matters concerning abstract, text, tables, or figures used. Authors should also ensure adequate attention to sensitive or legal issues such as land owner and land manager concerns or policies.

PROCESS: All submitted manuscripts are sent out to at least two experts in the field. Reviewed manuscripts are then returned to the author for consideration of the referees' remarks and revi-
sion, where appropriate. All manuscripts are returned to the appropriate Associate Editor who then recommends acceptance or rejection. The Editor-in-Chief makes final decisions regarding publication. Upon acceptance, the senior author will be sent one set of PDF proofs for review. Examine the current issue for more information about the format used.

ELECTRONIC FILES: The Journal is printed at high resolution. Illustrations must be a minimum of 300 dpi for acceptance. Junior author, the following text is available:

The Journal of Cave and Karst Studies (ISSN 1090-6924, CPM Number #40065056) is a multi-disciplinary, refereed journal published three times a year by the National Speleological Society, 2813 Cave Avenue, Huntsville, Alabama 35810-4431 USA; Phone (256) 852-1300; Fax (256) 851-9241.
