Memorial Day Work Effort at Deep & Punkin

Over Memorial weekend, Jon and Mason Cradit hauled out and unloaded steel and welding the purlins for the roof, and drove back home the same day.

Old time independent cavers, Lex Cox and Milo Mill worked late into the evening Friday and started everyone off on Saturday. In spite of raining all Saturday morning (along with a little lightening and thunder), some real muscle work was accomplished on reinforcing the structure and installing the roof with the assistance of Bexar Grotto members Geary Schindel, Arron Wertheim, Graham Schindel and Josh Rubinstein.

Some major welding was done by Lydia Hernandez (*girl power*) from the Houston Grotto. Other Grotto helpers included: Drew Wendeborn, Zach Broussard, Steven Carrell, Alex Wendeborn, Zachery Olsen, Justin Olsen, Rocky Reidel.

Clockwise from top: Caroline, Lex Cox and Carlos on the back porch.
