Editors

Introduction to cave and karst GIS
Bernard W. Szukalski

Using GIS to manage two large cave systems, Wind and Jewel Caves, South Dakota
Rene Ohms and Matthew Reece

The use of GIS in the spatial analysis of an archaeological cave site
Holley Moyes

GIS applied to bioarchaeology: An example from the Rio Talgua Caves in northeast Honduras
Nicholas Herrmann

Remote sensing and GIS-based analysis of cave development in the Suoi Muoi Catchment (Son La - NW Vietnam)
L.Q. Hung, N.Q. Dinh, O. Batelaan, V. T. Tam, and D. Lagrou

Implementation and application of GIS at Timpanogos Cave National Monument, Utah
B.E. McNeil, J.D. Jasper, D.A. Luchsinger, and M.V. Rainsmier

The application of GIS in support of land acquisition for the protection of sensitive groundwater recharge properties in the Edwards Aquifer of south-central Texas
Dan Stone and Geary M. Schindel

Revising the karst map of the United States
George Veni

The development of a karst feature database for southeastern Minnesota
Yongli Gao, E. Calvin Alexander, Jr., and Robert G. Tipping

Karst GIS advances in Kentucky
Lee J. Florea and Randall L. Paylor, Larry Simpson, and Jason Galley

Using geographic information systems to develop a cave potential map for Wind Cave, South Dakota
Rodney D. Horrocks and Bernard W. Szukalski

Hurricane Crawl Cave: A GIS-based cave management plan analysis and review
Joel Despain and Shane Fryer

Public datasets integrated with GIS and 3-D visualization help expand subsurface conceptual model
Terri L. Phelan

An examination of perennial stream drainage patterns within the Mammoth Cave watershed, Kentucky
Alan Glennon and Chris Groves

Cave and Karst GIS Cover: Graphic design by Tammy Johnson and Jim Pisarowicz [photograph by Bernie Szukalski (Whiterocks Cave, Utah). GIS images by Bernie Szukalski and ESRI (the cave pictures - clockwise from top left: Blue Spring Cave, TN, Hidden River Cave, KY, and Wind Cave, SD) the other two are ESRI stock images].
