

Western Region

National Speleological Society

The Western Region of the National Speleological Society promotes cave conservation, scientific study and recreational use of caves, establishes solid landowner relationships, provides research & conservation grants to regional projects, and produces speleo-education seminars and social events for our members. We host an annual business meeting each fall and sponsor occasional regional seminars. Our quarterly publication, the California Caver, is included in membership dues. Membership includes NSS grottos and individual cavers across California, Oregon and Nevada.

If you are a member of a grotto, or, better yet, a full member of the NSS, we'd like to invite you to join the Western Region. Dues are \$10 for regular members and \$1 for additional family members at the same address. Our dues cycle matches the calendar year. Members joining late in the year will receive copies of all that year's newsletters.

We hope you can join us!
