HardCore Technologies presents TAG LIGHTS

"Seeing your world in a new light"

The brightest helmet mounted
light available for cavers!

Standard features include:

- *Blue-white spot to flood focus
- *In-line fuse on battery
- *Maintenance free, sealed,
memory free batteries
- *Light weight and compact!
- *Excellent shelf life

Georgia system - #6904

2 lb., 5 (*11) hour system

Alabama system - #6907 10hr.

3 lb., 10 (*17) hour system

Tennessee system - #6910 14hr.

4 lb., 14 (*25) hour system

Full power usage - not dimmed!

*Hours using our new low amp bulb - still
brighter than an electric miner's light!

Call or write:

HardCore Technologies
P.O. Box 4041
Chattanooga, TN 37405

(615) 886-3296 FAX (615) 886-3572

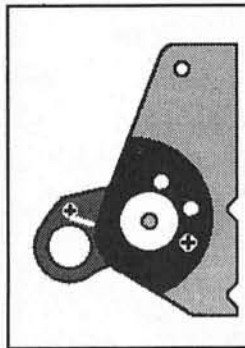

THE RESCUER'S AID

Our #3 aluminum ascender and our #3S ascender in
stainless steel are the rescuer's friends.

Two indents form extra pinch points for more
holding power.

The extra thick aluminum shell of #3 and the
stainless steel shell of #3S give unprecedented strength
and wear. Both have breaking strengths of 5000 lb.

Convert easily from spring loaded to free running
*Not intended for self belay by solo climbers.

1995 KARST FIELD STUDIES at MAMMOTH CAVE

Western Kentucky University through its Center for Cave
and Karst Studies in cooperation with Mammoth Cave
National Park offers a series of one-week summer courses
focusing on caves and karst landscapes.

These intense field courses involve long and rigorous trips
into rarely visited portions of Mammoth Cave while others are
more surface oriented and less physically demanding.

Courses may be taken for undergraduate or graduate
credit or as a workshop which has much lower tuition.

Karst Geology — June 12-17

Exploration of Mammoth Cave — June 12-17

Karst Hydrology — June 19-24

Speleology — June 19-24

Cave Photography — June 19-24
