INTRODUCTION

This manual includes all policies governing the operation of the National Speleological Society Board of Governors (BOG) as of the restructuring that became effective on July 01, 2024. Previous versions of the BOG Manual can be found here: https://legacy.caves.org/nss-business/bog/Previous_BOG_Manuals.shtml
The Secretary of the Board, reporting to the Chair of the Board, maintains this manual.

Every action approved by the Board of Governors that serves to establish new policies, revises the governing body, or establishes new administrative procedures is an "Act" and is recorded in the BOG Manual. Longer acts that include detailed procedure may be referred to as "Appendices" but are still full acts in all their power and effect.

The initial two digits of an act's number designate in which section of the Acts it is cataloged in, the second grouping of numbers in an act are sequentially increasing with each new act approved. (Example: 02-504 can be found in the 2nd section of the Acts which are related to Directors, and was the 504th approved act since the inception of the NSS). Beginning in March 2006, BOG actions that created new Acts, amended Acts, or amendments to the Constitution and Bylaws are annotated *month-day-year: meeting minutes agenda item number*. (Example: 03-25-06:24d references the March 25, 2006 Board of Governors Meeting, agenda item 24d.)

There is a current version of the BOG manual in the board's cloud storage, as well as all previous versions post 2024 restructuring.

08-190 Style Guide 03-16-22:6, 11-16-68

The Board of Governors adopts the following style guidelines to be used when proposing new and amending existing constitutions, bylaws, and Board Acts.

- Use the word “must” instead of “shall.”
- Establish acronyms at first use. You can't assume all readers will know what an acronym means.
- Do not capitalize titles or officers, such as director or president, unless used directly before a name (President George Washington).
- When discussing nouns made of multiple words, such as nature preserves, establish a short form in parentheses. For example, “The NSS owns 22 nature preserves (preserves) throughout the US. These preserves”
- Use gender neutral language (they/them/their/theirs) whenever possible. For example, instead of “He said . . .,” use “They said”
- Use gender neutral “chair” versus “chairman/men.”
- Continue to use the traditional carats for inclusion (blue <<...>>) and removal (red >>...<<)) with the addition of strikethroughs for removal (>>remove this<<), so that we do not rely solely on color and confusing symbols to indicate intention.
- Approved acronyms include: National Speleological Society (NSS), Board of Governors (BOG), Executive Director (ED), Secretary-Treasurer (S-T).

SECTION 86 --- PUBLIC RELATIONS

86-559 Cave Owner Liability 03-18-00, 10-15-94

86-844 NSS Statement of Values 08-02-10:20

The following NSS Statement of Values is adopted as the beliefs that embody our values as an organization. Cavers and Caving - The NSS believes that:

1. Caving is a specialized pursuit best undertaken by knowledgeable and responsible persons using safe equipment and techniques.
2. It is the embodiment of the knowledge, experience, and efforts of its members, that member volunteers must be appreciated, and exemplary contributions to caving should be recognized.
3. Speleology is advanced by discovery, exploration, and survey, and these contributions are ideally accomplished with minimal impact to the caves.
4. Its purposes are furthered by the formal study of caves and karst and through the publication of speleological information.
5. It is, through its members, the best source for information on access to caves.
6. Its goals are best served by respecting the wishes and rights of landowners, both public and private.

The Caves - The NSS believes that:

1. Cavers have a responsibility to preserve caves and karst for the benefit of future generations through low-impact use and the protection of highly sensitive areas.
2. There is an ongoing need for outreach and education addressing the importance of caves and karst.
3. It serves a vital national leadership role as an advocate for the conservation of the natural and cultural aspects of caves.
4. Land use planners can benefit from expert consultation in order to avoid inappropriate development over and adjacent to caves and aquifer recharge zones.
5. It is important to establish, strengthen, and promote enforcement of cave protection legislation at all levels of government.
6. Its purposes are advanced through the encouragement and practice of responsible cave stewardship.

The Society - The NSS believes that:

1. Its goals can be furthered by adding and retaining members.
2. Fellowship among cavers at events such as caving projects, NSS conventions, regional caver gatherings, and local grotto meetings promotes a stronger organization.
3. It serves to unite cavers and caving groups into a national organization for a common purpose, and it will continue to build and maintain affiliations with other entities that have complementary goals.
4. Its organizational effectiveness depends on a free exchange of ideas and information between members and leadership.

Amended 03-25-23:12, 03-13-21:13, 10-22-11:17, 03-15-08:27 A&B, 03-05-05

POLICY FOR INTERNAL ORGANIZATIONS

1. The purpose of the Internal Organizations (IO) of the National Speleological Society (NSS) shall be to promote interest in and to advance in any and all ways the study of Speleology and to promote fellowship among those interested in it.
2. Every IO shall have complete freedom of action in its organization and fiscal policies, except no IO shall engage in any activity which is detrimental to speleology, conservation, safety, or the best interests of the NSS. Such activity is sufficient cause for revocation of the organization's charter by the Board of Governors.
3. IOs may be chartered upon submitting the following documents to the IO Team:
 - A. An acceptable Constitution and Bylaws showing the date of adoption and signed by an officer of the new organization.
 - B. An application in duplicate bearing the signatures of the charter members indicating which are members of the NSS. In the case of regions and surveys this will include the names of charter member organizations.
 - C. A brief history of the organization.
 - D. Other information requested by the Team.
4. Occasionally a group may request a grotto or chapter charter in an area where a chapter already exists. The NSS does not encourage the formation of additional chapters in an area where one already exists, so these applications will be handled according to the following guidelines: Unless it is obvious that the new group has been in contact with the existing grotto(s), they will be referred to the existing grotto(s), and the existing grotto(s) will be informed of the inquiry from the new group. The new group will be informed of our reluctance to charter another grotto in the same area, and the existing grotto(s) will be asked to contact the new group and invite them to participate in their activities. If, after a reasonable time, the IO Team feels that the grotto chartering is justified, the chartering may proceed.
5. The membership of IOs shall conform to the following requirements:
 - A. All persons who serve on the governing board of an IO must be a member of the NSS in *Good Standing* except in the case of Surveys where representatives of state entities or other conservation organizations may serve on the board regardless of their NSS membership status.
 - B. Full membership in IOs shall be open only to members of the NSS.
 - C. IOs may, at their option, have members who are not members of the NSS and who are limited to a year or less on this status.
 - D. Membership in grottos (or chapters) shall consist of at least five members of the NSS who have designated that grotto as their Primary Affiliation.
 - E. The formal name of a Student Grotto shall indicate that the organization is a Student Grotto (or Chapter).
 - F. Membership in sections must consist of at least ten members of the NSS.

- G. Membership in regions must consist of at least two grottos and may have one or more of the following:
1. Individual members
 2. Non-NSS organization
- H. Membership in Surveys shall consist of one or more of the following:
1. Individual members
 2. Grottos or Sections
 3. Non-NSS organization
- I. In a College or University Outing Club*, the caving chairman must be a member of the NSS and will be responsible for communication with the NSS.
6. Each IO shall have the following responsibilities to the NSS:
- A. They shall submit an annual report to the Internal Organizations Team, containing the mailing address of the organization, a list of the organization's officers with their respective NSS numbers, the names of two organization members (with email addresses or telephone numbers) who are to be listed as contacts in caves.org, the URL of the organization's Web site (if any), if the organization has changed its constitution or bylaws since the last report, and whether copies of the organization's publication are being submitted as per section C of this paragraph. If the constitution or bylaws have been changed, copies of the new documents must be provided to the committee. The Team may request additional information, but the completion of it must be labeled as optional. Reports must be submitted prior to a date set by the IO Team.
 - B. In formal usage and in the event of incorporation, append to its name the words "... a Chapter (Regional Association, Speleological Survey, Special Section) of the National Speleological Society." In the event that one of the above terms is used in the name, only the words "... of the National Speleological Society" need be used.
 - C. Two copies of each publication (if any) shall be submitted to the NSS Library. At least one copy and preferably two copies shall be furnished to the NSS Cave Files Team, and it is recommended that one copy be furnished to the U.S. Geological Survey.
 - D. Each IO shall cooperate with the Society in establishing sound conservation and safety practices, and assist in or carry out other activities which further the purposes of the NSS.
7. All Internal Organizations, which comply, with the provisions of this policy shall have the following privileges accorded to them:
- A. Each Internal Organization shall, upon request, receive one copy of each issue of the *NSS NEWS* and the *JOURNAL OF CAVE AND KARST STUDIES*.
 - B. IOs shall be entitled to representation at the Congress of Grottos in accordance with established rules of the Congress.
 - C. Any IO will be permitted a non-voting representative at any meeting of the Board of Governors for the propose of presenting or discussing matters relating to the organization.
 - D. Each IO may receive assistance from the Society such as cave location data, slide shows, library materials, and exhibition materials to aid in the activities of the organization.
8. Each IO shall be classified by the IO Team as being active or inactive. Active organizations will be those organizations which have fulfilled the requirements of Article 6. Only active organizations may receive the benefits listed in Article 7.

*Footnote to 5.I: A college Outing Club is defined as an organization which regularly engages in more than one outdoor activity and which is recognized as a student activity by a college or university.

APPENDIX J

BOARD OF GOVERNORS OPERATIONAL DIRECTIVES

The procedures used by the Board of Governors in conducting the business of the Society rest upon the bylaws of the Society, the Acts of the Board, and Robert's Rules of Order - Newly Revised. There is also custom or tradition, known to the many individuals who provide continuity to the operation of the Society but which is not formalized.

I. Arrangements

A. Board meetings are traditionally held at a location where an NSS grotto may act as the host. Invitations are solicited from grottos individually and through the Administrative Memo and the NSS News. The Board Arrangements Team provides the "Guide to Arranging for an NSS Board of Governors Meeting" to interested grottos.

B. The host grotto makes all local arrangements, provides local transportation, and sends notification of the meeting to nearby members and grottos (in addition to notices in the NEWS). The names of persons to contact to arrange local accommodations, being met at the airport, etc., will be sent to all board members well in advance of the meeting.

II. Agenda

A. The agenda for a board meeting is prepared by the Chair of the Board. Its format is subject to the provisions of the Acts of the Board and Robert's Rules of Order - Newly Revised. The agenda for a meeting at which the Chair of the Board changes is prepared by the outgoing Chair of the Board. A preliminary agenda shall be prepared and distributed to the Board a minimum of one month prior to the meeting. A final agenda shall be prepared and distributed to the Board a minimum of two weeks prior to the meeting, and every effort shall be made to have all motions presented in the agenda. The preliminary agenda shall be placed on a public area of the NSS Web site, and replaced by the final agenda when it is completed.

B. Proxies, Minutes Approval, Reports, and Appointments

1. Proxies must be designated individually by absent board members. (See Bylaw IV.E).
2. All corrections to draft minutes should be submitted to the Recording Secretary. Changes in context or in voting will be brought to the Board's attention. Typographical errors will be corrected immediately.

3. Reports about the activities of most teams are usually included in the appropriate division head's. Matters of special import or topicality will be reported upon individually. The Acts of the Board require that reports from the Chairman of the Congress of Grottos and the Treasurer for the real property teams are to be presented at all board meetings.

4. A recess will normally be scheduled for a closed meeting of the Board.

C. Motions

1. Motions may be introduced by any member of the Board of Governors, subject to the provisions of the Bylaws, Acts of the Board, and Robert's Rules of Order - Newly Revised.

2. All motions changing or requiring a change in the bylaws must be submitted to the Bylaws Committee in advance of being submitted for inclusion in the agenda.

3. Motions will be presented in full in the written agenda unless they are lengthy or require

attachments. In these cases, the agenda will include only an identification of the subject. The full motion and attachments should be sent directly to the board members by the author.

4. Motions for board action should not contain discussion of the question, but only a statement of the question. "Whereases"--which are, properly, discussion--are only appropriate in resolutions that the board is asked to adopt for distribution outside the Society. In most such cases, these resolutions should be sent directly to the board members by the author with the agenda for the meeting only mentioning their prospective presentation.

D. New Business

1. Additional business will be an agenda item. Motions included in Additional business are the ending items of the agenda and should be addressed after the "Committee of the Whole". Appropriate matters to introduce in additional business are:

a. Motions arising from board discussion of previous motions or discussion.

b. Urgent matters not included in the agenda due to lack of time.

At the insistence of a Board Member, motions not meeting these two criteria shall be included in additional business.

E. The agenda should not be used to communicate with other board members. Matters concerning the existing operation of the Society should be discussed with the executive director, division heads, etc., and communicated to other board members prior to introducing a relevant motion on the agenda, unless circumstances require bypassing normal prior discussion.

III. Reports

Reports form a necessary and important part of every meeting. In general, any report to be presented to the board must have been given a place on the meeting agenda.

A. Structure of a Report

1. No report shall include within the body of its text motions requiring immediate board approval. The body of the report should be limited to informational material not requiring board action or, at most, actions suggested for future consideration.

2. Any motions evolving from a report, to be brought for action at the time the report is presented, shall be listed separately and individually at the end of the report, but not as a part of it. Each such presented motion may be acted upon separately in the normal manner.

B. Motions relating to a report

1. Any motions evolving from a report, to be brought to the board for action at the time the report is presented, shall be presented to the Chair of the Board for incorporation into the printed agenda for that meeting by the deadline announced for the reception of agenda material. If this is not done, these motions shall be placed under new business and acted upon as time permits.

C. Acceptance of a Report

1. Every report presented at a regular, announced meeting of the Board of Governors shall be considered received by the board by virtue of its presentation. No formal vote will be required.

2. The author of a report presented at a regular, announced meeting of the Board of Governors may request a formal vote of acceptance from the board if they desires. In general, this will be for making the report an "official statement of the Society".

3. Reports listed in the agenda will be attached to the minutes for that meeting. Other reports

allowed for presentation by the board will only be included in the minutes if a formal motion to that effect is adopted.

D. Reports should be prepared in standard "Attachment" format and lettered as directed in the minutes. The original of each report should be submitted to the Recording Secretary before the meeting.

IV. Robert's Rules of Order as Newly Revised

A. Robert's Rules of Order, as newly revised, prevail at Board of Governors meetings except where superseded by a special board act.

B. The Chair of the Board will normally act as parliamentarian unless he chooses to appoint a parliamentarian to assist him. As Robert's Rules are designed to expedite the business of the meetings, board members should become familiar with them.

V. Minutes

A. Draft minutes will be distributed to Board members by the Recording Secretary as soon as possible after the meeting, preferably within 14 days. Board members will be asked to submit corrections and suggestions to the Recording Secretary within 7 days. After making all necessary corrections the Recording Secretary will submit to the Chair of the Board a copy of the comments and corrections related to the business conducted, as well as the final draft minutes for approval by the Board at the next regular meeting. The final draft will be posted to the NSS Business page of the NSS Web site as soon as possible, but no later than 30 days after the meeting. The draft version will be replaced by the final version approved at the following meeting. Only corrections relating to the content of minutes of the previous meeting will be brought before the Board for approval. The NSS recording secretary is responsible for ensuring the minutes are posted online.

B. Minutes shall include only motions; disposals of motions; other action taken; oral updates to officers' written reports; issues and comments presented during Open Discussion period; reports from the closed sessions; a list of Board members present and proxies; disclosures of conflict of interest and their deposition, and other information pertinent to the meeting and business conducted. Written reports from Division heads and committees shall be included as attachments to the minutes

APPENDIX P

June 19, 1971

Amended March 5, 2005

DEFINITIONS AND POLICIES FOR SOCIETY ACTIVITIES

Certain activities by groups of Society members that promote the purposes of the Society may be designated as official Society functions. The activities described in this policy, while they consist of Society members, are not Internal Organizations of the Society by this designation. They will be known collectively as "NSS Activities." The names of some of these activities are widely used generic terms. It is to be understood that this policy refers only to such activities specifically recognized by the Society. These activities and the policies relevant to them are as follows:

NSS EXPEDITIONS

A trip to a remote area with the goal of substantial original exploration or discovery may be designated a National Speleological Society Expedition. The trip purposes, plans, and leaders must all be approved by the Board of Governors of the Society in advance.

NSS PROJECTS

A group of members or an existing Internal Organization of the society may be designated a Project of the National Speleological Society if its scientific, technical, research, or project goals would be advanced by such a designation.

CONSERVATION TASK FORCES

A group of Society members, or an existing internal organization of the Society may be designated a Conservation Task Force of the NSS. The basic objectives of a conservation task force are the investigation of one or more cave conservation problems, the reporting and publicizing of their findings and conclusions, the development of recommendations for local or national action, and implementing suitable action to resolve the problem. A conservation task force is organized to address a specific defined problem. The task force is expected to be dissolved when the problem disappears, is resolved, or becomes moot.

CONSERVANCIES

A group of individuals or organizations dedicated to cave conservation and having as one of its goals the acquisition, lease, and management of caves and karst properties may be designated a Conservancy of the National Speleological Society.

POLICIES

The following policies may apply to NSS Activities:

1. Each NSS Activity may identify itself as "The (chosen name) . . . (Conservation Task Force, etc.) . . . of the National Speleological Society" or as "The (chosen name), a (Conservation Task Force, etc.) of the National Speleological Society." It may incorporate at its own discretion.
2. Except for conservancies, all members of the organizing body of such NSS Activities (committee, board, officers, Divisions, etc) must be members of the Society. All officers of a conservancy must be members of the Society.
3. Any group seeking an official designation as a Society Activity should bring its request to the Board through the appropriate Division of the Society. The authority to make certain designations has been delegated by the Board to division discretion as noted below.

<u>Activity</u>	<u>Arrangements Made By</u>	<u>Designation Conferred By</u>
Expedition (US)	US Exploration Team	Board of Governors
Expedition (Int'l)	International Exploration Team	Board of Governors
Project	Research Advisory Team	Research Advisory Team
Task Force	Conservation Team	Conservation Division
Conservancy	Cave Conservancies Team	Board of Governors

Other teams will be consulted as necessary. The teams having responsibility for each type of NSS Activity will establish suitable procedures and determine the format and content of an application.

4. Any NSS Activity may raise funds in any manner consistent with the purpose and practices of the Society, but normally through voluntary contributions, group membership dues, equitable distribution of expenses associated with the Activity, fees for goods and services, etc. The Society cannot acknowledge or otherwise verify donations made to NSS Activities unless the donations are received by the Society office or treasurer and recorded in the Society books.
5. The Society shall have no legal or financial obligation to such NSS Activities unless established by contract. Likewise, no NSS Activity shall have legal or financial obligation to the Society other than that

established by this policy. The Society may, through its regular procedures, be the recipient of contributions designated for use by any of the above Activities and may make awards and grants to these groups.

6. Each NSS Activity will report frequently (at least annually) or at the completion of an expedition, or project, to the Society membership through the sponsoring team. Interim reports to the team or the Board may be requested. Significant accomplishments or results by an Activity should be submitted to the editor for possible publication in the *News* or *Bulletin*.

7. The designation of the above NSS Activities shall terminate upon the submission of a final report, the completion of the group's purposes, dissolution of the group, petition by the group for termination, or determination by the Board of actions contrary to Society policy. The entity, which conferred the designation (Board or Division or Team) may terminate it upon evidence of inactivity.

8. Policies and plans of NSS Activities will be established by cooperation between the group and the Division of the Society. The separate and independent nature of conservancies is recognized, although those groups may bring problems to the Board for arbitration if they wish.

9. The Board of Governors may elect to review the official status of any NSS Activity at any time.

10. The designation of NSS Activity shall not confer upon the Society any right of control over, or responsibility for, the equipment, methods, or techniques employed by the group, or the acts, omissions, or decisions of any of the participants.

The candidates and the Board of Governors will be informed of the election results no less than 40 days preceding the current year NSS National Convention.

L. The chair of the Nominating Committee will make available at the convention, for review by any of that year's candidates, the final tallying sheets for the election and all ballots. Following the convention, the Committee's records and ballots will be sent to the Archivist and should be kept in the archives for not less than two years.

M. When required, the Chair of the Board may put a Bylaw or act referendum, along with a pro and a con position statement, on the ballot to be voted on. The same general procedures for the Director's election will apply to the Bylaw or act referendum, except that the final results will be given first to the Chair of the Board for action, then to all the other members of the Board.

N. Each year, a complete, list of the ballot results will be emailed to the NSS Archivist, in care of the NSS Office, to be placed in the NSS Archives.

II. EXECUTIVE SEARCH

A. The search for an Executive Director, when a vacancy occurs, must be conducted with a 3rd party executive search firm.

B. The cost of using a search firm may be large; however, it is critical that the correct candidate is found. A candidate guarantee of 6 months to 1 year is required.

NSS TRAVEL POLICY

The NSS functions as a volunteer organization benefiting from countless hours and dollars donated directly and indirectly by its Volunteers each year. While many are able to, and comfortable with, donating all expenses involved with their NSS "jobs" there are occasions where reimbursement for some travel expenses are necessary to allow the volunteer to accomplish their job without undue financial pressure. As an example, members of the Board of Governors pay all personal travel expenses to attend BOG meetings throughout the country. Our intent in spelling out this travel policy is to make clear when reimbursement is available, and how it is accounted for, should a volunteer request it, while encouraging the continued spirit of covering expenses personally, when that is not burdensome. We operate the Society on a modest income and accomplish a very wide range of activities, in part, because we are fortunate enough to have so many of our members donate their time and resources. In order to be clear, while allowing flexibility where needed, and avoid inconsistency in administering NSS funds, we have spelled out areas where our Acts provide for travel, our general policies, including paying for travel of our office staff for NSS events, where they are "on duty,"

general guidelines for Convention and the NCRC, (which are covered in more detail in their respective policy documents).

The Division Heads each have a modest travel fund that they may apply to special travel needs by those teams and Volunteers who work in their Divisions, where travel costs become a concern.

GUIDELINES FOR REIMBURSEMENT:

(1) Assistance is limited to the costs of transportation unless established under specific acts and policies.

Examples:

- (A) The office staff when operating the bookstore off site.
- (B) NCRC Training staff at NCRC national seminars funded by registration fees as per Policy for NCRC National Seminars.

(2) Travel arrangements should be made at the most reasonable cost. The maximum allowed airfare should be at the coach, economy or similar low-cost rate with 14-day advance reservation or driving at the IRS Tax code volunteer or employee rate, as applicable, for not-for-profit organizations.

(3) Travel reimbursement must be for more than 300 miles. Multiple short trips totaling more than 300 miles within a 30-day period are eligible for reimbursement. Employees are not subject to this limit.

(4) Each person requesting reimbursement will submit an expense report (on a form Approved by the Treasurer) with receipts or similar documentation such as a detailed description of the expenses and the date it was incurred. The report will describe the reason for the travel. The travel report must be approved and signed by the respective Division Head. The Division Head will forward the travel request to the Treasurer for reimbursement. The Society shall try to provide reimbursement within 30 days after submission of the report

WHO SHOULD RECEIVE AUTHORIZED TRAVEL:

The NSS will reimburse travel costs incurred by:

(1) Division Heads, in order to attend Staff meetings (other than those held in association with meetings of the Board of Governors) provided the travel expenses are covered by a BOG approved Travel budget.

(2) Individuals invited to attend a Staff meeting (for example to help prepare the NSS budget) provided the travel expenses are funded from a-Division budget.

(3) Any volunteer or employee of the Society, traveling on the Society business, when reimbursement is authorized in advance by a Division head and whose travel expenses can be covered by that Division travel budget without exceeding the approved budget amounts. Current examples are:

(A) NSS Executive Director, Secretary-Treasurer or their designated agents when required to perform their duties at the NSS office.

(B) NSS employees carrying out the duties of their NSS job. This includes their designated agent to transport them or NSS bookstore items to an NSS convention or other sales event.

(C) Individuals traveling to special events when approved by the Executive Director in advance and funded from the Executive Director's Conference Travel Budget. For example, specialists requested to testify at government hearings.

(4) Individuals who need to travel and who have a budget approved by the BOG, which explicitly approves the expenditures of funds for travel costs. Current examples are:

- (A) NSS NEWS editor.
- (B) Journal of Caves & Karst Studies editor.
- (C) Conservation Division Chairman.
- (D) NSS National Cave Management Symposium Coordinator.
- (E) NSS Convention Development Department Chairman.
- (F) NSS Recording Secretary to attend required non-convention meetings.

(5) Specific individuals or groups of individuals funded according to acts of the Board of Governors such as:

- (A) instructors for a NCRC rescue training seminar funded from seminar fees as per the Policy for NCRC national seminars.
- (B) NSS convention staff funded through Act 56-293.

(6) Individuals who receive an International Speleological Partnership grant and the travel is funded under the grant.

(7) Individuals who are performing work on behalf of the Society under a grant or contract from an external organization, which authorizes the reimbursement of travel costs. Reimbursement shall be as determined by the cooperative agreement.

(A) participants under the NSS Mammoth Cave Restoration Cooperative Agreement or any other such agreement with Government agencies that provides for travel expense reimbursement.

(8) Individuals in extraordinary situations when approved in advance by the Board of Governors.

CHECKS AND BALANCES:

All travel should have an approving/responsible party. Each Division head is responsible for approving all travel expenditures within his or her Division.

The Secretary/Treasurer has the responsibility to report a summary of all NSS travel in their annual report to the board as prescribed by the Board of Governors. As with any budget item, details should be available upon request by members of the Board of Governors.

NSS ANTI-HARASSMENT POLICY

This Anti-Harassment Policy applies to all events sanctioned by the National Speleological Society. Internal organizations within the Society are independent organizations and may create their own policies. To remain compliant with the NSS Charter, they must also have in place an Anti-Harassment Policy, agree to implement the NSS policy, or be subject to the policy of a parent/host institution, or risk loss of association with the NSS.

The National Speleological Society is dedicated to providing a safe and harassment-free environment for our members and attendees at our events, on social media, and within our organization. We will not tolerate harassment in any form. Any attendee that violates this policy will be told to leave the event and may be subject to further disciplinary action at the discretion of the NSS Board of Governors, pursuant to Bylaw XIII.C-E. Discipline of Members.

Harassment includes but is not limited to inappropriate comments, inappropriate sexual behavior that warrants intervention, unwanted advances and touching, invasion of personal space in a sexual manner, deliberate intimidation, and unwelcomed sexual advances. In addition, harassment includes unwanted verbal, physical, cyber, or aggressive behavior. If an incident of harassment is reported, the event staff, volunteers, or NSS representatives will take corrective action against any offenders at the time of the incident, ranging from verbal warnings to expulsion from the area and/or event and a referral of the offender to the NSS Board of Governors for consideration of discipline from the Society.

We value all of our members and attendees that come to caving events and want to ensure that safety and well-being of all participants is a top priority. Any person being harassed or witnessing another person being harassed should contact a staff member immediately. We will make every effort to assist and provide protection for our members and attendees.

Complaints about harassment may also be directed, in confidence, to the Executive Director and/or Chair of the Board.

The NSS Board of Governors will only act on official, written reports of direct and personal attacks in regards to the Anti-Harassment policy. All complaints will be fully investigated and follow the policies and procedures outlined in this policy.

APPENDIX BJ

July 25, 2020:10

Amended 03-25-23:10, 11, 03-19-22:21a

NATIONAL SPELEOLOGICAL SOCIETY CODE OF CONDUCT

Why Have a Code of Conduct?

The National Speleological Society (NSS) is dedicated to the exploration, study, and protection of caves and their environments. Just as importantly, it is also predominantly a community of friends. To create the best community in the world for caving and to foster an inclusive environment where everyone feels capable of pursuing our goals, it is critical to have a shared understanding of what constitutes acceptable and unacceptable behavior. It is impossible to further the goals of our society if harassing behaviors are allowed to persist within the confines of our activities. The NSS works as a self-directed, community-driven organization because of the trust shared among NSS cavers. Reporting Code of Conduct violations helps identify when this trust is broken and prevents incidents from happening in the future.

Accordingly, all NSS members, as well as guests and visitors, are expected to show respect, kindness, and courtesy to each other in all interactions, whether at official NSS events, in our online community, or in other contexts.

The NSS Board of Governors created this Code of Conduct from the feedback and suggestions of NSS members, evaluation of similar policies from other organizations, and a review of how the NSS currently handles violations of our policies. The intent is to lay out what is considered unacceptable actions that require reporting, inquiry, and potential disciplinary action resulting from violations of Board Act-28-558 (Non-Discrimination in Membership). More generally, this document exists to ensure that everyone has a common understanding of behaviors that do not “show respect, kindness, and courtesy to each other” at NSS-sponsored events. Inquiries and disciplinary actions associated with the Code of Conduct are administered by the Executive Director and the General Counsel of the NSS and can be escalated to the Board of Governors for additional action.

Scope

Unacceptable behaviors, as defined below, by NSS members, guests, and visitors are not tolerated when representing the NSS in any capacity, including, but not limited to, participation in official NSS events and online on NSS internal communities (for example, Cavechat.org, NSS Facebook Group, NSS Slack, or other online groups officially associated with the NSS). While not required, we encourage NSS Internal Organizations (I/O) to adopt and enforce this Code at the I/O level.

The NSS community and experience often extends outside official NSS events. NSS members go on caving trips together, attend meetups or conferences as a group, and communicate on other social media forums. Abusive or unwelcoming behavior among NSS members still has a profound effect on individuals

and on the community when it happens outside of official NSS events. When reported, the NSS General Counsel, in consultation with the Executive Director, will investigate reports and recommend outcomes of the investigations to the Chair of the Board if necessary and the Board of Governors.

This Code of Conduct is not intended to be a formal legal process; instead, this is a compilation of behaviors that violate our existing policies, a description of how and when to report violations, and a description of how the General Counsel and Executive Director of the NSS will respond to reported violations. The Board of Governors will review this Code of Conduct and update it as necessary based on past cases and member feedback.

The following definitions apply to the individuals referenced in this Code of Conduct:

- **Complainant:** An individual, group, or I/O that initiates a report
- **Respondent:** A member or group that is the subject of the report or investigation
- **Witness:** An individual who can provide written or oral testimony in connection with a report

Definitions of Unacceptable Behaviors

The following types of behavior are considered unacceptable at official NSS events, both online and in-person. Engaging in any of the conduct below repeatedly, or in a way that creates discomfiture, constitutes a potential violation of the NSS Code of Conduct. Understanding the unique nature of caving, politely explaining physical/technical limitations of an activity (for example, a caving trip), without offensive or unnecessary commentary, does not constitute harassing behavior under this Code of Conduct.

Harassment—Including, but not limited to, offensive verbal comments or physical actions related to age, physique, disability, ethnicity, sex characteristics, gender identity and expression, education, socio-economic status, nationality, personal appearance, race, religion, or sexual identity and orientation.

Sexual Harassment—A subset of harassment that specifically includes unwanted behavior or words that are sexual in nature, including but not limited to, displaying sexual images in public spaces, stalking, inappropriate physical contact, and unwelcome sexual or persistent romantic attention.

Threats—Statements or actions that imply, explicitly or implicitly, intent to harm.

Blatant “-isms”—Statements that are explicitly antagonistic to a person’s identity. This includes, but is not limited to, statements about age, physique, disability, ethnicity, sex characteristics, gender identity and expression, education, socio-economic status, nationality, personal appearance, race, religion, or sexual identity and orientation (for example, racist, sexist, or homophobic statements).

Reporting

If you or someone else is in immediate danger from criminal activity (for example, physical assault, sexual assault, theft), a dangerous physical situation (for example, fire, serious injury, fear that someone will hurt themselves or someone else), or have witnessed a crime, please contact law enforcement immediately—call 911. For other immediate needs at an official NSS event that are not of criminal or harassing concerns, follow the contact procedures provided by the event organizers or the NSS Membership Division Head by phone (available from caves.org).

If you experience or witness any behavior that appears to be a violation of this Code of Conduct, please report it using [our online form](#).

Where and How to Report

Please report all Code of Conduct violations using [our reporting form](#). The information that the form requests includes:

- **Your name**—This is incredibly helpful for us to be able to follow up with you and ask questions to better understand the situation. All reports are confidential; however, the form allows you to report anonymously. We take every report seriously—please report anonymously only if absolutely necessary. Anonymous reports often limit the ability of the General Counsel to investigate the report to the extent necessary. If you can, please consider providing an email address so that we can follow up with you about the report via our third-party reporting tool, which anonymizes your contact information, meaning that we will never see your email address.
- **A detailed description of what happened**—Whenever possible, please include the names of all individuals present at the time of the violation. If the violation happened online, please take a screenshot and include this evidence in your report.
- **Where and when the incident happened**—Any information that will provide detailed context for the incident.
- **Current status**—This lets us know the current state of the situation. Please let us know if there have been subsequent conversations or actions with parties involved in the complaint since the reported actions occurred.
- **Any other relevant context**—Do you have examples of a pattern of similar behavior from this person before? Do you have a relationship with this person outside of the NSS?

Confidentiality

All reports will be kept confidential, to the extent possible, and on a need-to-know basis among those involved in the investigation and disciplinary process, except as agreed on with the complainant and others named specifically in the report. When incidents are discussed outside this group, including with the respondent and witnesses, the details will be anonymized as much as possible to protect the complainant's privacy.

However, we recognize that many incidents occur in interactions where anonymization is not possible. If you have concerns about retaliation or the personal safety of the complainant or witnesses and do not want us to share the details of your report with anyone (including the respondent), please let us know explicitly in your report. Although we will not be able to take direct action in this case, with your permission we will collect statistics on the prevalence of such incidents within the society.

In some rare cases, we may decide to share an update about a major incident with the entire NSS community. If that is the case, the identities of all parties involved will remain confidential unless those individuals instruct us otherwise.

Enforcement

This policy is intended to protect members through the use of reasonable due process procedures. Recognizing that each case is different, the NSS is dedicated to applying discipline in a fair and consistent manner.

The NSS Board of Directors will only act on official, written reports of direct and personal attacks in

regards to the Code of Conduct. All complaints will be fully investigated and follow the policies and procedures outlined in this policy.

After filing a report, a representative of the Code of Conduct team will contact you personally, review the incident, and follow up with any additional questions. The Code of Conduct team must either: 1) refer the parties to the Internal Organizations team if the complaint does not meet the level of NSS involvement, 2) refer the parties to the Internal Organizations team for mediation, 3) notifies parties if a complaint does not warrant further investigation, or 4) refer to the General Counsel's legal team for investigation and oversee the investigation maintaining communication with the parties. The investigation may involve actions including, but not limited to, interviewing all involved in the situation, including witnesses identified by the reporting party and the accused, reviewing material evidence, and other modes of investigation as needed. During this process, if the complainant, respondent, or witnesses have inquiries into the status of the investigation, they should reach out to their Code of Conduct team representative. Mediation is not considered to be discipline, and if appropriate, mediation will be attempted before disciplinary action.

If the complainant, respondent, or witnesses are part of the legal team or Board of Governors, they must recuse themselves from handling the incident.

Likewise, if anyone in the aforementioned groups has a conflict of interest, they must recuse themselves from investigation and adjudication.

If the respondent is found to be in violation of the Code of Conduct, they will be sanctioned, with disciplinary actions ranging from a verbal warning up to, and including, removal from the society. The Code of Conduct team will conduct a hearing before the Board of Governors and will seek 2/3 approval before administering the sanction. Parties are entitled to view the investigation report and submit written statements to the board prior to the hearing.

C) Curriculum Committee

- 1) No person may be appointed to the Curriculum Committee or as Education Coordinator more than twice in any twelve consecutive calendar years.
- 2) A vacancy on the Curriculum Committee occurs from any of these events: (a) death; (b) they resign; (c) they are removed; (d) their term expires.
- 3) Members of the Education Committee may be removed by two thirds vote of the full current membership of the Board. Members of the Education Committee may also be removed by the Education Division Head at any time, with or without cause.

VII) Trainers

A) Master-Trainers

- 1) Any NSS member may be qualified as a Master-Trainer upon demonstrating sufficient knowledge, skills, experience, and proficiency in training Trainers through the Master-Trainer coursework, and upon a majority vote of the full current membership of the Board confirming that the individual has met the criteria for qualification and is also suitable to be a Master-Trainer. Completion of a Master-Trainer course does not automatically mean that the individual has met the criteria for qualification.
- 2) The Board may impose additional criteria for requalification after a fixed period or any other criteria, as determined by the VTC Bylaws.
- 3) Master-Trainers serve at the pleasure of the Education Division Head and at the pleasure of the Board. Master-Trainers may be removed either by the Education Division Head or by a two-thirds vote of the full current membership of the Board, with or without cause.
- 4) Master-Trainers may conduct Courses to train cavers in the safe use of vertical techniques, to train cavers to become Trainers, and to train Trainers to become Master-Trainers. All such Courses must be conducted with the prior knowledge and approval of the National Coordinator and must use materials and curricula developed by the Curriculum Committee and approved by the Board.

B) Trainers

- 1) Any NSS member may be qualified as a Trainer upon demonstrating sufficient knowledge and skills to teach a specific vertical training course level, upon a unanimous vote of all of the Master-Trainers conducting a Trainer course that the individual has completed and that the individual has met the criteria for qualification. But such a unanimous vote is subject to veto by a two-thirds vote of the full current membership of the Board. Completion of a Trainer course does not necessarily mean that the individual has met the criteria for qualification.
- 2) The Board may impose additional criteria for requalification after a fixed period or any other criteria, as determined by the VTC Bylaws.
- 3) Trainers serve at the pleasure of the Education Division Head and at the pleasure of the Board. Trainers may be removed either by the Education Division Head or by a two-thirds vote of the full current membership of the Board, with or without cause.
- 4) Trainers may conduct Courses to train cavers in the safe use of vertical techniques and equipment. All such Courses must use materials and curricula developed by the Curriculum Committee and approved by the Board.

VII) Operation of the VTC

- A) The NSS Board of Governors may, by majority vote, remove any authority of the VTC, veto any action by the VTC, or exercise any authority otherwise given the VTC.
- B) All financial accounting and disbursements for the VTC must be handled in accordance with the Acts of the NSS Board of Governors and financial and reporting requirements established by the NSS Secretary-Treasurer.
- C) The VTC may not construct a website outside of the accepted NSS IT structure, and the VTC online presence must be in alignment with current NSS website strategies. The VTC secretary-treasurer must likewise manage VTC finances in accordance with the current practices as specified by the NSS secretary treasurer.

D) The Board and Curriculum Committee may appoint additional committees to accomplish the work of the VTC. The Board may establish additional Offices in its Bylaws to address the needs of the VTC, but no other office will have a vote on the Board.

E) The attached bylaws will govern the initial operation of the VTC. Thereafter, the VTC may amend its bylaws only by a two-thirds vote of the full current membership of the Board, followed by approval of the NSS Education Division Head.

NSS CODE OF ETHICS

The National Speleological Society (NSS) relies upon employees, elected officials, and appointed volunteers to work to achieve the goals of the Society. These individuals are expected to act in the best interest of furthering these goals when discharging the responsibilities of their position. These individuals may not use their position for their own gain, be it financial or using items developed for the NSS at their place of employment.

Ethical behavior is expected where someone might benefit financially or socially through action or inaction related to their NSS position, beyond any benefit that is associated with that position. It is acceptable that an NSS volunteer may benefit socially or professionally because of respect for their service to the NSS or NSS' goals.

Individuals are also expected to avoid situations where the perception of an ethical lapse is created. Individuals in office who face a potentially ethically challenging situation must recuse themselves from the decision. If that is not possible, the individual must notify the NSS Executive Director or the Chair of the Board whichever is appropriate, in writing in a timely manner. Individuals who run for an elected office or who apply for an appointed office must disclose any relationships that might cause others to have a concern about ethical behavior. Note that having that relationship does not disqualify anyone.

Individuals must:

Avoid accepting any gifts above nominal value that make it appear they influenced an NSS matter.

For example: If a landowner adjacent to an NSS property wishes the NSS to grant an easement and sends the NSS property manager a bottle of whiskey as a gift, the whiskey should not be accepted.

Recuse themselves from any decision that might provide personal financial benefit.

For example: If an NSS-owned building needed to be re-roofed and a member of that property's management committee owned a roofing company, that person must either announce that he or she will not participate in or influence the decision-making process of selecting a contractor, or announce that his or her company will not submit a proposal for the work.

Make clear any relationships with others who hold or are applying or standing for NSS offices. For example: An individual who plans to run for an elected NSS office and has a partner or family member in an NSS office should publicly share the fact of the relationship.

Avoid situations where a single person controls expenditures without oversight.

For example: When a person orders supplies for a NSS activity, another independent person must verify receipt of the supplies so that good stewardship of the funds is not questioned. Receipts for all purchases are required for reimbursement.

Be as transparent as possible about decisions that are questioned.

Violations of this code by employees are governed by the appropriate employment law. Violations of this

code by NSS members, except for employee members where the violation occurred within the scope of employment, may be disciplined as per the NSS Bylaws.
